

Racism & the Media:

A highly important presentation:

The lie that built the Northern Territory Intervention

6pm Friday Sept 3
UTS, University Hall
entrance in Harris Street (Opp. ABC), Ultimo,

Speakers:

Tjanara Goreng Goreng - Former Senior Policy Advisor at the Office of Indigenous Policy. Tjanara questioned the use of the military and police in Aboriginal communities and **blew the whistle** on the NT intervention.

Chris Graham - Founder and former editor of National Indigenous Times. Will report on the **ABC Lateline** programme titled 'Sexual slavery reported in Indigenous community'.

"Lateline's reporting led directly to the greatest human rights abuse certainly of my time, and probably in the last half century. The Northern Territory intervention has harmed Aboriginal people; it's caused starvation; it's seen a dramatic rise in reports of self-harm incidents; it's driven children away from school; it's wasted hundreds of millions of taxpayer dollars."
Chris Graham
