The introduction of the Northern Territory Intervention in 2007 is one of the most shameful episodes in the history of Australia's brutal and racist treatment of First Nations People.

Marking Human Rights Day, Stop the Intervention Collective Sydney will hold a public forum on the expansion of the Intervention. The event will provide a rare opportunity to hear directly from Barbara Shaw, from Alice Springs, who has lived under the Intervention, Lex Wotton, (Palm Island) who is now free to speak after 9 years of being gagged by the courts. They will be joined by Monique Wiseman of the Wayside Chapel, and Paddy Gibson, Jumbunna Senior Researcher UTS, from Sydney.

Under Howard, in 2007, the military was sent into Aboriginal communities in the NT, the Racial Discrimination Act was suspended and the Intervention policies were forced onto Aboriginal people. Most of these measures were extended for 10 years by the federal Labor government's Stronger Futures legislation in 2012. The Intervention is punitive. Controlling measures are expanding to other states. Compulsory income management is to be trialed in other states via the so-called "healthy welfare card".

The statistics are damning. Since 2007, incarceration has doubled in the NT, reported rates of attempted suicide and self-harm are up almost 500%, and child removal rates have increased more than three-fold.

Aboriginal people have fought to end the NT Intervention, demanding community control, self-determination and direct investment in housing and employment. First Nations people across the country have continually pleaded with governments to work with them – not against them. Government attempts to break up Aboriginal land councils continue unabated, and remote communities across Australia are now under threat of closure.

As the human rights of First Nations People continue to be eroded, please join us for this timely and important discussion.

STICS works hard to ensure the voices of First Nations people living under the Intervention are heard around the country, organising speaking tours and protests. We are all volunteers and rely solely on donations from supporters to continue this work. All donations appreciated big or small!
