

**STOP
THE
INTERVENTION**

**REPEAL
'STRONGER FUTURES'**

**STOP
THE
INTERVENTION**

**REPEAL
'STRONGER FUTURES'**

Many of you will be attending events or meeting politicians as they go about promoting themselves.

We of the STICS committee would like you to direct question about the intervention to them.

Also send one of these questions to Q and A

<http://www.abc.net.au/tv/qanda/ask-question.htm>

Please ask:

1. The intervention/Stronger Futures has been going for 9 years and statistics show that it has failed. When will you repeal this policy?
2. The Intervention was introduced as an emergency measure by John Howard in 2007, and extended by Gillard as Stronger Futures. There has been no marked improvement to those living under these draconian laws, yet your party supports this expensive policy. Why?
3. The Racial Discrimination Act was suspended so the government could inflict punitive, controlling measures, such as income management, on Indigenous people. The UN Special Rapporteur on the human rights and fundamental freedoms of Indigenous people condemned these measures for overtly discriminating against Aboriginal people, infringing their right of self-determination and stigmatizing already stigmatized communities. The Rapporteur has also stated that the Intervention is incompatible with Australia's obligations under several international human rights treaties. When will you repeal these racist, counterproductive measures?

Please print this and put up around your local area. We on the committee want to see the intervention as an issue that people are still concerned about and we want it repealed.

Please forward this, put on facebook, instagram etc. Make more people aware that this shameful bipartisan federal policy is an issue of concern to all caring people.
